School Ready

Immunizations:

Florida law requires that every child present valid immunization records and proof of physical evaluation prior to admittance or attendance in a Florida school. This applies to all students in pre-kindergarten through the twelfth grade, including those students with special problems up to the age of twenty-two. **You must always present a Florida Certificate of Immunization, either DH or HRS form 680-Part A, B, or C that identifies the age appropriate immunizations required for your child to attend school.**

Health Examination:

The "Florida Plan for School Health Services" also requires that all students (PK-12), including those new to the state and those entering pre-kindergarten or kindergarten classes for the first time, provide documentation of a Student Health Examination performed within the **12 months** prior to initial entry into a Florida school. **A student health examination (DH or HRS-H form 3040) must be completed and signed by a licensed practicing health care provider and presented to the school at the time of registration.**

Safety Form:

It's the law! Emergency information cards must be completed and signed by each child's parent or guardian every year. **Please notify our school office with any address or telephone number changes that may occur throughout the year so that our records will remain current.**
