

Homeschool Extension Families can now **enroll** for the **2019-2020** school year!

The Application Process is as easy as 123...

1. Submit an online application via [RenWeb](#)
2. Once an application has been submitted your family will be contacted by the appropriate school office to schedule a family interview.
3. Upon acceptance families will need to finalize their child's enrollment by completing an enrollment packet via RenWeb (all instructions will be included in the acceptance letter).

Why Applying On February 1st Is Important!

If you intend for your child to take classes, you can indicate your class preference through the online application and in the summer will receive a google form which will allow you to request particular classes. The google form will include the master schedule and bell schedule so that you are able to see what time of day the classes that are of interest to you are taking place. These entries are only a request and no guarantee of class enrollment can be made until after August 1st. Class enrollment fees will be billed to your RenWeb account at that time. Additionally, there have been updates to the tuition and fees so please view the information [here](#).

Class enrollment will open on August 1st on a first come, first serve basis according to the student's re-enrollment date and the number of seats still available at that time. Families can view a list of our [high school](#) and [middle school](#) course options on our website.

Enrollment in our HSE program allows FBA student involvement in a variety of [extracurricular activities and academic opportunities](#).

Please reach out with any questions at scrain@fbalions.org or at 239-597-2233 ext. 658.
